# Requestor Certification of Qualifying Facility Under Public Utility Regulatory Policies Act (PURPA)

---

The undersigned Requestor desires to interconnect an electric generating facility under Prairie Power, Inc.'s Policy #509 - Interconnection Policy for Cogenerators and Small Power Producers under Public Utility Regulatory Policies Act (PURPA) and, if applicable, Board Policy 307 (Interconnection and Parallel Operation of Distributed Generation) of Shelby Electric Cooperative (Cooperative). With regard to such electric generating facility, the Requestor makes the following certifications.

1. The electric generating facility is a Qualifying Facility under Section 201 and 210 of the Public Utility Regulatory Policies Act (16 U.S. Code §796 and §824a-3) and the rules and regulations promulgated thereunder, including the provisions of the Code of Federal Regulations, Title 18, Part 292 (collectively "PURPA").
2. The electric generating facility is the following type of Qualifying Facility within the meaning of, and definitions under, PURPA:  
 Cogeneration facility.                       Small power production facility.
3. The electric generating facility:  
 Is exempt from certification under PURPA. A true and complete copy of FERC Form 556 (which has not been filed with FERC) is attached to this Requestor certification.  
 Meets the requirements for self-certification under PURPA, and the Requestor has on \_\_\_\_\_, 20\_\_ filed with FERC a notice of self-certification as a Qualifying Facility. A true and complete copy of the FERC Form 556 filed with FERC is attached to this Requestor certification.  
 Has been approved by FERC as a Qualifying Facility under PURPA. True and complete copies of the FERC Form 556 submitted with the application to FERC and the FERC approval

certifying the electric generating facility as a Qualifying Facility are attached to this Requestor certification.

4. Requestor intends that, for any compensation due to Requestor, or any payment due from, Requestor, as a result of any over-generation of the Qualifying Facility to be:

contracted with Prairie Power Inc. In doing so, there will be additional metering installed by the Cooperative and Prairie Power Inc. at the Requestor's expense. The contractual agreement will also include an ongoing monthly communications fee through Prairie Power, Inc. to guarantee real-time-data retrieval for accurate market pricing. Cost specifications will be included in the Interconnection Construction Agreement.

waived.

This Requestor certification is executed and delivered by the Requestor or the Requestor's duly authorized officer or representative on the date indicated.
